reative Support

Recently Nancy Stamm and her students at the Art Center designed and painted six large barrels for Project S.H.A.R.E. Each barrel was transformed into a can of tuna, peas, spam, peanut butter, soup or jam. You can find them at Grace UMC, First Presbyterian Church, St. Pat's, St. John's, Otterbein UMC and Green Spring Church of God. Grace UMC is a "tuna church." They set a boat in their gathering area of their church to remind folks to eat tuna. This week the boat sailed over to 2nd Presbyterian in search of another school of tuna.
